(vi) Institutional set - up for liquidity risk management:

Board of Directors through board approved sub committees, keep an effective oversight on the risks associated with the company including liquidity risk. Organisation structure for liquidity risk management is as mentioned below.

- Risk Management Committee
- Asset Liability Committee (ALCO)

The Company has a robust ALCO process and ALCO Committee meet on a regular basis to evaluate external market environment, liquidity position and near - term liquidity requirement factoring in business growth estimates. The committee also oversees the liquidity position based on different stress scenarios and reviews the structural and dynamic liquidity statement and interest rate sensitivity statements. Minutes of ALCO are also placed to Board of Directors. Risk management committee also meets quarterly to review various risks inherent under company’s operations such as credit risk, interest rate risk, operational risk and liquidity risk etc.
